Behind every song there is a musician. Behind every musician is a story. For the past year, Locals Lounge has been telling those stories in front of a live audience in the heart of Vancouver's Granville Entertainment district. By letting audiences see the human beings behind the performers who keep Vancouver's music scene vibrant and growing, Locals Lounge seeks to tear down the boundaries between the stage and the seats, and restore the life to live music.

Since launching our first live music showcase in September of 2016, Locals Lounge has featured a veritable "who's who" of local talent including: multi-instrumentalist Alex Maher, CBC Searchlight winners Desirée Dawson (2016) and The Long War (2017), Western Canada Music Award winner David Morin, and BC Country Music Award winners The Heels. Each month, Locals Lounge's guests share their songs and stories with a live audience in an intimate and interactive setting.

Our events are typically attended by 30-60 people. Our team provides artist recruitment, graphic design, social media promotion, ticket sales, and event photography and videography. We have successfully run twenty events and have built a reputation among local musicians and our regular attendees for providing a unique live experience that cannot be found anywhere else in Vancouver.
